

Delivering Compelling Presentations

Virtual Six hours

Strong presentation skills build your credibility, make a positive impression, and play a big part in your personal and organizational success. This course gives you greater confidence when speaking to audiences of any size and level. You leave prepared to deliver presentations that capture your audiences' attention and inspire them to act.

Who should attend

This course is suitable for people who give informal presentations to small groups, as well as for those who deliver more formal presentations to larger audiences. While it is helpful for novice presenters, the course is also a great way for more experienced presenters to fine-tune their platform skills.

We can accommodate six participants in the course with one facilitator, or 12 participants with two facilitators. With this low learner-to-facilitator ratio, participants receive plenty of individual feedback on the presentations they deliver.

You learn to

- reduce presentation anxiety and stress with proven exercises and techniques
- write an engaging opening and an inspiring closing
- use your voice and body language to enhance your credibility
- handle questions and audience interaction with professionalism and confidence

What to expect

This course is fast-paced, hands-on and enjoyable. Come with a short presentation on a business topic of your choice. You learn how to tighten up your presentation, practice your delivery skills, and receive feedback from both your colleagues and your facilitator. You receive a recording of your presentation so you can evaluate your skills privately. You also receive a comprehensive digital manual containing useful resources.
